EXPERIENCE

1. Backend Developer Intern (November 2023 - March 2024) – "Edumitram Private Ltd."

Role: Backend Developer Intern

- Worked as a backend developer intern on a project named "Society", a platform designed to bring communities together and offer multiple services to users.
- Developed and maintained RESTful APIs for various features of the platform.
- Worked on database design and integration, ensuring efficient data storage and retrieval.

2. Summer Internship (June 2023 – August 2023) – "Internshala"

Role: Full Stack Developer (Web Developer Intern)

- Worked as a full stack developer on the PG Life project a web platform for selecting and booking PG accommodations.
- Developed both frontend and backend features using HTML, CSS, JavaScript, and PHP.
- Implemented PG listings, and responsive design for a seamless user experience across devices.

PROJECTS

Website "PG LIFE" (June 2023 – Aug 2023)

Tech Stack: HTML, CSS, JavaScript, PHP

Role: Full Stack Developer

Developed a responsive website for selecting and booking PG accommodations. Handled complete frontend and backend development, including user login, PG listings, filters, and detailed pages. Built during a summer internship at Internshala.

CityShop - Local Marketplace for Shopkeepers & Shoppers (December 2024 – March 2025)

Tech Stack: React Native, PostgreSQL, Supabase Auth, Razorpay

Role: Backend & Full Stack Developer (Group Project)

Built a mobile/web application to connect local shopkeepers with nearby shoppers. The platform supports online product listings, real-time inventory updates, and secure payments. Worked on both frontend and backend; primarily led backend development including database design, and authentication.

Todo-Collab (Feb 2025 – March 2025)

Real-Time Collaborative Task Manager

Live: todo-collab.vercel.app

Tech Stack: Next.js, Tailwind CSS, Firebase Auth & Firestore

Role: Full Stack Developer

Developed a real-time collaborative task management web app where users can create, edit, and track tasks within shared rooms. Handled both frontend and backend development, including user authentication, real-time database integration, and responsive UI design. Deployed on Vercel for fast performance and scalability.

EXTRA-CURRICULAR ACTIVITIES

- 1. University Topper (Gold Medalist) in B.Sc Degree.
- 2. Won Meritorious awards in 10th and 12th for holding 1st and 2nd rank respectively.
