TECHNICAL SKILLS

Frontend: React.js, Next.js, React Native, HTML, CSS

Backend: JAVA, Python, PHP

Database: Mongo DB, PostgreSQL, MySQL

Tools: Firebase, Vercel, AWS

CERTIFICATIONS

1. TCS NQT (National Qualifier Test) 2023.
2. 'JAVA ESSENTIALS' Course from MIND LUSTER.
3. 'WEB DEVELOPMENT' Course from INTERNSHALA.
4. TCS Career Edge Yong Professional Course
5. Introduction to Information by Amazon Web Services and offered through Coursera.

EXPERIENCE

1. **Backend Developer Intern (November 2023 - March 2024) – "Edumitram Private Ltd."**

   Role: Backend Developer Intern
   - Worked as a backend developer intern on a project named "Society", a platform designed to bring communities together and offer multiple services to users.
   - Developed and maintained RESTful APIs for various features of the platform.
   - Worked on database design and integration, ensuring efficient data storage and retrieval.

2. **Summer Internship (June 2023 – August 2023) – "Internshala"**

   Role: Full Stack Developer (Web Developer Intern)
   - Worked as a full stack developer on the PG Life project – a web platform for selecting and booking PG accommodations.
   - Developed both frontend and backend features using HTML, CSS, JavaScript, and PHP.
   - Implemented PG listings, and responsive design for a seamless user experience across devices.

PROJECTS

Website "PG LIFE" (June 2023 – Aug 2023)
Tech Stack: HTML, CSS, JavaScript, PHP
Role: Full Stack Developer
Developed a responsive website for selecting and booking PG accommodations. Handled complete frontend and backend development, including user login, PG listings, filters, and detailed pages. Built during a summer internship at Internshala.

CityShop - Local Marketplace for Shopkeepers & Shoppers (December 2024 – March 2025)
Tech Stack: React Native, PostgreSQL, Supabase Auth, Razorpay
Role: Backend & Full Stack Developer (Group Project)
Built a mobile/web application to connect local shopkeepers with nearby shoppers. The platform supports online product listings, real-time inventory updates, and secure payments. Worked on both frontend and backend; primarily led backend development including database design, and authentication.

Todo-Collab (Feb 2025 – March 2025)
Real-Time Collaborative Task Manager
Live: todo-collab.vercel.app
Tech Stack: Next.js, Tailwind CSS, Firebase Auth & Firestore
Role: Full Stack Developer
Developed a real-time collaborative task management web app where users can create, edit, and track tasks within shared rooms. Handled both frontend and backend development, including user authentication, real-time database integration, and responsive UI design. Deployed on Vercel for fast performance and scalability.

EXTRA-CURRICULAR ACTIVITIES

1. University Topper (Gold Medalist) in B.Sc Degree.
2. Won Meritorious awards in 10th and 12th for holding 1st and 2nd rank respectively.
